ARS

WELCOME LETTER

Dear Colleagues,

We are delighted to welcome you to the **III International Quality Symposium ‘Improving Patient Experience: Challenges and Approaches’** hosted by UPMC and ISMETT in Palermo on 27 January 2023.

An updated, exciting program, and a fresh line-up of international experts will lead us through new strategies, trends, and mindsets suited to meet the evolving healthcare industry. Drawing from actual experiences, we will have the opportunity to deep dive into new approaches to patient experience aimed at improving the quality of life of the patients and their families, of healthcare workers, and of our communities.

After the global COVID-19 pandemic, hospitals are faced with new and unprecedented challenges to meet patient’s needs, and keep them, their families, and the staff safe; the pressure to manage resources efficiently and effectively is mounting. Acquiring new skills and competencies had never been this crucial.

International healthcare leaders from several organizations including the University of Pittsburgh, Planetree, Press Ganey and Huron together with Italian quality experts, will analyze up to date field research findings and strategies implemented by some of the most advanced healthcare systems globally, and share new perspectives and approaches.

Target audiences are all healthcare professionals, including those who have a coordinating and managing role. The event will be CME accredited.

We look forward to welcoming you in Palermo!

Angelo Luca, MD

*Vice President, Health Services, UPMC Italy
Chief Medical and Scientific Officer, UPMC Italy
CEO, IRCCS ISMETT
Vice President, Ri.MED Foundation*

Barbara Ragonese

Chief Quality Officer, UPMC Italy

SCIENTIFIC PROGRAM

Healthcare leaders and clinicians are invited to join UPMC and IRCCS ISMETT on 27 January for a dive into the main drivers of Patient Experience, to analyze current challenges, and discuss new approaches. International and Italian experts will share new tools to measure and assess patient experience, and new approaches to improve them.

The course is hosted by Assemblée Regionale Siciliana and Fondazione Federico II.
