

Fabrizio di Francesco

Graduated in Bologna (Italy) in 2000 “cum laude” and trainee in General Surgery at the University of Modena, School of Medicine, Department of General Surgery, Multivisceral and Liver Transplant Unit, under the direction of the Professor A.D. Pinna.

Trainee’s program:

- Adult liver transplantation
- Adult small-bowel and multivisceral transplantation
- Adult living donor liver transplantation
- Adult HPB surgery

From October 2007 - October 2012

Fellowship-Junior Attending in Abdominal Transplantation and Abdominal Surgery, at the Istituto Mediterraneo per I Trapianti e Terapie ad Alta Specializzazione (ISMETT), Palermo, Director B.

Gridelli

Trainee’s program:

- In situ split liver
- Adult liver transplant
- HPB surgery
- Kidney transplant

From September 2012 - July 2016

Attending at the Department of Hepatobiliary Pancreatic Surgery, Liver Transplantation, Pediatric Hospital Ospedale Bambino Gesù, Roma, Director Prof. Jean de Ville de Goyet

Trainee’s program:

- In situ split liver
- Pediatric liver transplant
- LRLT (donor surgery/liver transplant)
- HPB Pediatric surgery
- Kidney transplant

From July 2016 – August 2022

Attending; University of Pittsburgh, UPMC Health System Italy, Istituto Mediterraneo per I Trapianti e Terapie ad Alta Specializzazione (ISMETT) Palermo (Director: A. Luca)

- *Department for the Treatment and Study of Adult Abdominal Diseases and Abdominal Transplantation (Prof. S. Gruttadauria)*
- *Department of Pediatrics for the treatment and study of abdominal pathologies and abdominal transplants (Prof. Jean de Ville de Goyet)*

Trainee’s program:

- Adult liver transplant

- Pediatric liver transplant
- LRLT (donor surgery/liver transplant)
- HPB Adult surgery
- HPB Pediatric surgery
- In situ split liver
- Kidney transplant
- Adult Laparoscopic surgery
(partial distal pancreatectomy, cholecystectomy, wedge liver resection)
- Pediatric laparoscopic surgery (cholecystectomy)

September 2022 - Present position

HED of Liver Surgery Unit - Department for the Treatment and Study of Adult Abdominal Diseases and Abdominal Transplantation (Prof. S. Gruttadauria)

Most of my training was focused on transplantation field and HPB surgery. I gained experience in the field of partial liver transplant. I am independent in Adult and Pediatric liver and Kidney transplant, Whipple procedure and laparoscopic liver resection and distal pancreatic resection.

During my training and later, during my fellowships in different hospitals, I gained experience in "in situ" split liver, and I have performed numerous vascular reconstructions during back-table surgery of partial liver grafts (both right and left). During my pediatric training I became independent in Kasai procedure, choledochal cyst resection and shunt Meso-Rex for portal hypertension. I have formally tutored several surgical trainees and have performed lessons as part of their academic lecture program. I do like very much teaching; in fact, I always have medical students and nursing students during the ward round.

I have received very positive feedback from surgical trainees whom I have trained as per rotation. I am interested in

research projects and drafting manuscripts. I have obtained the National Scientific Qualification as Associate Professor in General Surgery (ASN, MIUR), exceeding the national evaluation criteria necessary to be judged suitable. The title allows me to be eligible as a professor in General Surgery at any University School of Medicine in Italy. Prior to this I finished my PhD study. For 3 years as a member of the National Expert committee, I had to evaluate the possibility of obtaining a liver graft with priority in the pediatric national context.

During my career I have continuously left my "comfort zone" with the aim of improving all the technical and surgical aspects that a new place could offer me. In fact, during my surgical training I achieved the position of Clinical Research Assistant, in the Division of Transplantation, Department of Surgery, at the Thomas Jefferson University Hospital in Philadelphia (US) - Interim Director: C. Doria. So, I left Italy and I moved to USA. This experience helped me in developing adaptive skills to new working context, in a different country, with a different health system and a different language. Working in the USA was extremely intense for me, and I learnt massively from it. Moreover, it gave me the opportunity to be employed later on, as attending surgeon in HBP surgery at the Pittsburgh University Hospital in South of Italy (ISMETT), Palermo.

From September 2022, I was appointed Head of Liver Surgery Unit. I'm involved in all the activities of the department. I carry out the services for elective surgery and I cover the On Call for General Surgery and Liver transplant. I try to be flexible as much as I can in order to meet the needs of the department. In particular, I put effort in delivering the Transplant service for transplantation.

I attend with interest the M&M and the weakly multidisciplinary meeting. I take part in the bed site teaching to juniors' doctors and medical students. I put a lot of effort in teaching during the elective lists to the surgical registrars and Core Trainees. I do the ward rounds trying to reduce the hospital staying for the patients. I also deliver outpatient clinics mostly face to face and, in particular, I take care and follow the patients potentially eligible to be a living donor for the living related liver transplant program. I daily organize the job table for the senior clinical fellows regarding patient care and organ harvesting procedures. I also prepare the elective operating lists and the outpatient clinics for adult patient with liver disease. Daily I collaborate with the hepatology group for the inclusion in the waiting list of patients who are candidates for liver transplantation and for in-patient care. I daily round with the Anesthesia Team for the ICU patient care. I attend the Interventional Radiology patient's procedure discussing about findings and planning the care pathway (MDT).

I am a very good team player and approachable person; I can motivate my team effectively leading with example firstly and secondly supporting all the elements in my team to do their best and reach their full potential. From experience, I have understood that when the situation is critical and complex, you can only win as a team, if you have previously created a strong bond with all the elements of your team. Patient safety has always been the core of my acting as a person and as a surgeon, and in order to do so, I did personal sacrifices which were always paid after in terms of good outcomes.

Participation as a speaker at a scientific conference abroad: 12th International Congress of the European-African Hepato-Pancreato-Biliary Association in MAINZ (GERMANY) from 23-05-2017 to 26-05-2017. ORAL PRESENTATION - Monocentric Experience on Hepatitis C-Positive Deceased Liver Donors Procurement in the Mediterranean Basin. *D. Pagano, A. Seidita, A. Tropea, D. Cintorino, G. Pietrosi, F. di Francesco, G. Vizzini, A. Luca, S. Gruttadauria.*
6. Participation as a speaker at a scientific conference abroad: 12th International Congress of the European-African Hepato-Pancreato-Biliary Association in MAINZ (GERMANY) from 23-05-2017 to 26-05-2017. ORAL PRESENTATION - Logistic regression analysis of NK and T-cell content isolated from liver perfusate after procurement procedures in donors after brain death. *D. Pagano, E. Badami, P. Conaldi, F. di Francesco, A. Tropea, A. Casu, I. Petridis, F. Tuzzolino, G. Vizzini, A. Luca, S. Gruttadauria.*
7. 12th International Congress of the European-African Hepato-Pancreato-Biliary Association in MAINZ (GERMANY) from 23-05-2017 to 26-05-2017. ORAL PRESENTATION - Normothermic Machine Perfusion Using an Air / Oxygen Mixer: Reconditioning a Marginal Donor Liver. *F. di Francesco, P. Bonsignore, G. Martucci, D. Pagano, D. Cintorino, R. Liotta, A. Arcadipane, R. Volpes, A. Luca, S. Gruttadauria.*
8. 18th Congress of the European Society of Organ Transplantation - BARCELONA (SPAIN) from 26-09-2017 to 26-09-2017. ORAL PRESENTATION - IMPACT OF DECEASED BRAIN DONORS CHARACTERISTICS ON LIVER PERFUSATE LYMPHOCYTE SUBSETS: SINGLE CENTER ANALYSIS. BOS157 *Pagano D; Ester Badami; Pier Giulio Conaldi; Fabrizio di Francesco; Alessandro Tropea; Anna Casu; Ioannis Petridis; Giovanni Battista Vizzini; Angelo Luca; Salvatore Gruttadauria.*

9. 18th Congress of the European Society of Organ Transplantation - BARCELONA (SPAIN) from 26-09-2017 to 26-09-2017. ORAL PRESENTATION (ELEVATOR PITCH) - COMPETING RISK ANALYSIS FOR INCISIONAL HERNIA OCCURRENCE AFTER LIVER TRANSPLANTATION. EP043. *Pagano D; Davide Cintorino; Sergio Li Petri; **Fabrizio di Francesco**; Calogero Ricotta; Pasquale Bonsignore; Alessandro Tropea; Salvatore Gruttadauria.*
10. 41st NATIONAL CONGRESS OF THE ITALIAN SOCIETY OF ORGAN TRANSPLANTS - CAGLIARI from 09-11-2017 to 11-11-2017. ORAL PRESENTATION - PREDICTION OF THE RISK OF RECURRENCE OF HEPATOCELLULAR CARCINOMA AFTER LIVER TRANSPLANTATION BY: MONOCENTRIC ANALYSIS OF THE ALLELIC IMBALANCE. *Pagano D, F. Barbera, P.G. Conaldi, D. Cintorino, **F. di Francesco**, A. Tropea, A. Seidita, R. Volpes, A. Luca, S. Gruttadauria.*
11. Participation as speaker at a scientific conference abroad: Joint International Congress of ILTS, ELITA & LICAGE in Lisbon, Portugal 23 - 26 May 2018_ ORAL PRESENTATION - Title: Impact of liver perfusate Natural Killer cellular subset from deceased brain donors on acute cellular rejection prediction after liver transplantation: COX proportional regression analysis.
12. Organization as moderator at a scientific conference in Italy 42nd NATIONAL CONGRESS Italian Society of Organ and Tissue Transplants _ BOLOGNA _ INNOVATIONS IN ORGAN TRANSPLANTATION FROM A LIVING DONOR from 22-11-2018 to 24-11-2018
13. Participation as a speaker at scientific conferences in Italy, from 21-11-2019 to 23-11-2019. ORAL PRESENTATION – Impact of the use of organs from donors with extended criteria for liver transplantation in benchmark patients: preliminary experience of a single center.
14. 43 ° National Congress ROME 2019 from 21-11-2019 to 23-11-2019-LIVER TRANSPLANT: DONATION AND TRANSPLANT FROM LIVING AND PEDIATRICIAN.
15. Participation as a speaker at scientific conferences in Italy: Faculty Member for the presentation of an Abstract February 19th-21st, 2020 HUMANITAS CONGRESS CENTER ROZZANO, MILANO_ FIRST NATIONAL CONGRESS AICEP _ VIDEO PRESENTATION: Liver resection for living donor liver transplantation: standardized surgical techniques in order to prevent donor complications.
